The American MAFYA

"Can you train a soldier NOT to bleed? Can you train a soldier NOT to breathe?"

The 1988 "Crack War" was simulated perishable-food 'Canning War,' provided by pencil pushers (Bonesmen), courtesy of a 1920's depression, "civilized-economic decline. Crack-Not-Canning" cocaine created the IMF and international monetary policy. Pencil dicks traveled The USA weighing racehorses to predict the controlled market price of "depression horsemeat-hamburgers" to corn and beef, but forgot to add .3 to every Oz. of ground meat for burgers with American cheese. 'The Jekyll Island Agreement' needs to be revisited. The President of Rothschild & Co. was on the radio in Connecticut during 1958 about it.

Imagine conducting canning ration audits with dates, food variety, special instructions (*the green beans Aunt Gladys made from 1979 can give you diarrhea*) in a massive underground tunnel, root cellar system in America. If you dispose of the food, what to you say to the US serfs on the land when they are starving again? Imagine if you give the canned food away before it spoils, what do you do when the Thailand and Philippines populaces arrive looking for more canned food rations in 30 years? Imagine if Mexico was a real Country instead of the prolapsed butthole of American decadence? These are real economic questions that were laid out at Yale 'Skull and Bones' in Connecticut. They make Korean orphan girls into 'Skull and Bones' now, at Yale.

'The St. Valentine's Day Massacre' (1929) was not an operation to take over 'The Chicago Outfit.' 'The St. Valentine's Day Massacre' was a nationwide takeover of prohibition alcohol bootlegging production/distribution through synchronized paramilitary operations. The automobiles of the era, shot-out alcohol production stills and paraphilia litter the woods of America until today; remaining as an unofficial message of US political corruption from the unveiling of 'The National Syndicate' (1929) with unmarked, rural graveyards of American outlaws. This is a music thought experiment created in order to help people I know! The Vietnamese Communists succeeded in winning a Deep Underground Military (DUM) Base in Western Canada from victory in The Vietnam War.

Mind Kontrol (MK) Ultra was a series of research programs which took place in prisons, hospitals and universities all over the United States during The Cold War. Tasked to create superspies and (Hash)assassins, harnessing mind-altering drugs, electronic stimuli and other forms of torture used to induce supplementary conditioning precipitates used to provoke alternative thought patterns in the patient. 'MKUltra' was patented in the German concentration camps and exported into foreign nations by The Allies by similar export agreements as the 'Transfer Agreement' with Palestine, and 'Project Paperclip' which traded populations of people as serfs of a failed state on a global Transnational Intelligence Market.

Precipitates of MK-Ultra were present in the theatre of war within the Iran-Contra Affair, Vietnam War and all conflicts of The United States in the Middle East. The Weather Underground, a sixties era Anti-American Communist Revolution Front may have consisted of MK Ultra victims born into the CIA during the end of the Second World War. BOSE Corporation (formed in 1964) has been previously publically sighted as a participate of this clandestine 'Silent War' within America 'MKUltra;' creating 'Silent Weapons' to induce Gamma/Delta Brainwaves with conditioned actions maintained by programmed stimuli and in the public eye as far into the 1980's with 'Boys Town' charity scandal in Omaha and Satanic Panic. Many pop/contemporary art and popular music of the day may have been a part of The Allied programmed mechanism of Mind Kontrol Ultra conditioning. National Radio syndication and transnational banking oligarchical cartels have historically been involved.

Basically, The Cold War is over and the handlers of these first generation of CIA Intelligence assets, born into CIA Intelligence networks, who are some real life NAZI's are long dead. This unmanned Transnational Intelligence hydra has no governmental body to speak about their experience, they are thought experiments. Albanian MAFYA makes up the majority of British Military Intelligence 6 (MI-6) and Lithuanian MAFYA created NSA to maintain 'The Jekyll Island Agreement' of 1913.

This audio journal is a series of thought experiments from independent, adult male participants from within The MIT Media Lab, who were exposed to Audio Technique v.10-3 PROJEKT MKULTRA involuntarily in youth. It is not supposed to be used as a substitute for medical attention required by trained military professionals.

While some have successfully brought litigation to the governing body of Canada, much of PROJEK MKULTRA and the mistreatment of American Citizens such as 'Winter Hill Gang' Captain James (Whitey) Bulger, Kentucky author Hunter S. Thompson, Hell's Kitchen 'The Westies' Gang, The Giovanni Mafia Family, Captain William Kidd, and Yale University's 'Skull and Bones' remain unknown to its governing policies.

CIA just 'Mystery Schools' of old
