Dear New Hampshire Banking Department,

I've been trying to come to a resolution with this bank for nearly 20 years! They have stonewalled me and refused to provide documentation on legal entities that are my sole property since Sept. 2000. They escalated to shouting and profanity yesterday in the Concord branch without confirming nor denying the existence of any Trusts. Insisting I hire a lawyer to uncover their illegal activity, I feel threatened at this time.

I appreciate your help in this matter.
